

20-Gallon Water Scrubber

Oil-Water Separators allow water to flow through, while separating out oils from industrial wastewater, process water, or stormwater.

Connect a hose to the top of the lid and open the bottom drain to allow oil-free water to pass through.

Oil-Absorbing Spilltration® technology is specifically designed to remove oily sheen from stormwater, while also preventing sediment and debris.

★ KEY FEATURES

- ✓ **Filter sediment, debris, and oils to allow clean water to flow**
- ✓ **UV resistant**
- ✓ **Standard 1" NPT lid bulkhead fitting for hoses or piping**
- ✓ **Lid can be used as a funnel with bulkhead removed**
- ✓ **Zero-release version available with oil-absorbing packets or Bazooka**
- ✓ **Refill kit available**
- ✓ **Bulkhead fittings and additional oil-absorbing accessories are customizable to your application**

✦ KIT INCLUDES

- ✦ (1) 20-Gallon Salvage Drum*
- ✦ (1) 3/4" NPT Drain
- ✦ (1) 1" NPT Lid Bulkhead
- ✦ (15) Oil-Absorbing Spilltration® Pads
- ✦ (2) Disposal Bags and Ties

**Cannot be used for transportation or waste receptacle of hazardous materials.*

✦ SPECIFICATIONS

- ✦ **Dimensions (LxWxH):** 22.25"x22.25"x19"
- ✦ **Weight:** 15 lbs.
- ✦ **Spill Capacity:** 20 gal.
- ✦ **Load Capacity:** 166 lbs.
- ✦ **Absorb. Capacity (per piece):** 68.9 fl. oz.
- ✦ **Absorb. Capacity:** 8.1 gal.
- ✦ **Flow Rate:** 10 gal./min.
- ✦ **Volume Capacity (Lid Used as Funnel):** 4.5 gal.
- ✦ **Regulations:** EPA 40 CFR 112.7, EPA 40 CFR 122.26, SPCC, NPDES

SKU: 43-20-WS

Refill Kit SKU: 43-20-WS-RF
