

Universal Poly Drum Safety Funnel

SKU: 3004-YE-SF

Assembly Instructions

- 1) Product shipped will be a funnel and a non-sparking safety bung closure with flame arrester.
- 2) Remove both bung fittings from the drum the Universal Poly Drum Safety Funnel is to be used with.
- 3) Place the funnel on top of the drum aligning the hole in the funnel with the large bung hole in the drum.
- 4) Insert the safety bung into the opening of the funnel and the large bung hole of the drum. Tighten the fitting of the safety bung to the bung hole of the drum to ensure the funnel is held securely between the safety bung and the drum to create a good seal.

- 5) Tighten the cap on the safety bung.
- 6) The drum bung fittings can be placed in the bung fitting holder in the funnel.
- 7) The Universal Poly Drum Safety Funnel is now ready to be used.
