Product Instructions

Poly-Dolly®

SKU: 5300

Important Information

- The Poly-Dolly® can stand for storage or laid down for dispensing. It **must** be placed on a level surface and cannot be used on stairs or ramps.
- The drum **must** be secured before attempting to move with the dolly.

Usage Instructions

1. Watch this unit being used at youtube.com/watch?v=Q0gEPWErAdM
2. Position the dolly upright against the drum. The drum bung opening should face the dolly. While holding the dolly in place, slide both lengths of the barrel strap over the drum and tighten securely. (See Fig. 1)
3. Using a drum tipper or other suitable equipment, tilt the drum away from the dolly, allowing the dolly platform to slide underneath. Ensure the drum is fully seated on the platform, then re-tighten the strap. (See Fig. 2)
4. Grip both handles and place one foot on the kick plate. Shift your weight onto your free foot while pulling the dolly toward you in one smooth, continuous motion. (See Fig. 3)
