

IBC Tote Spill Pallet Installation Instructions

SKU: 5469-YE, 5469-BD

PLEASE READ FOLLOWING DIRECTIONS BEFORE USE:

1. The IBC spill pallet **MUST** be placed on a solid, level surface, and able to withstand the following loads:

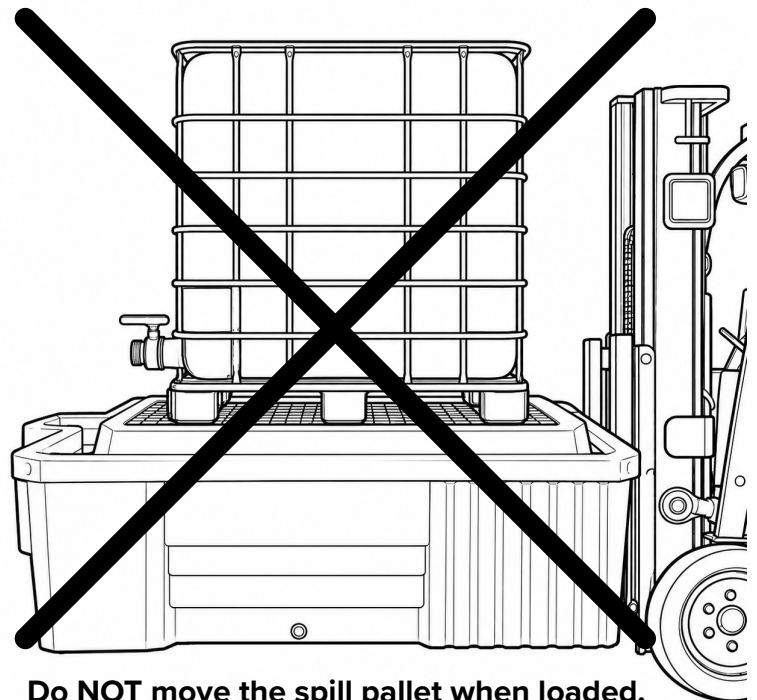

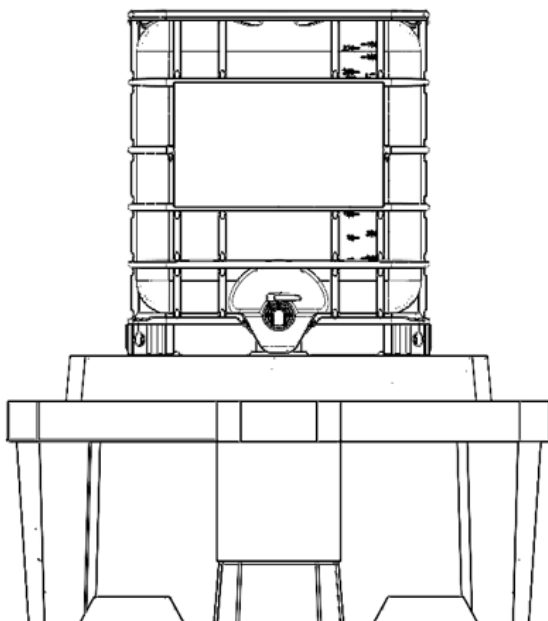

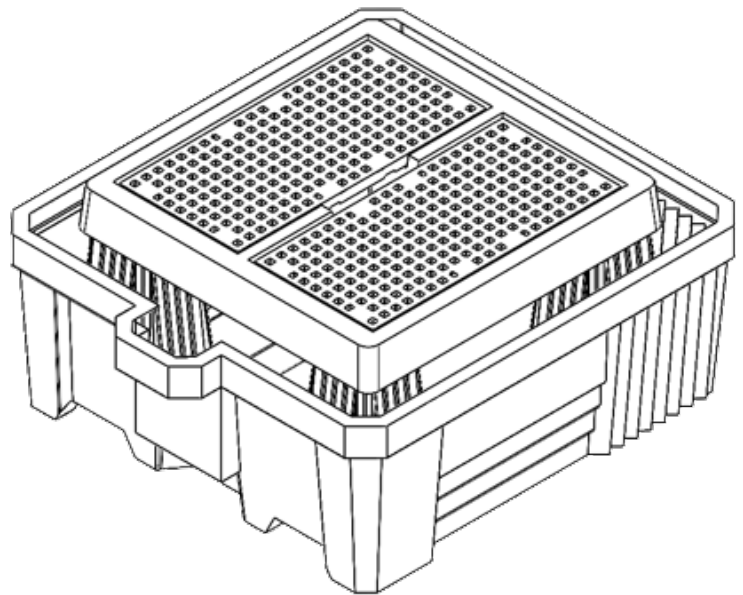

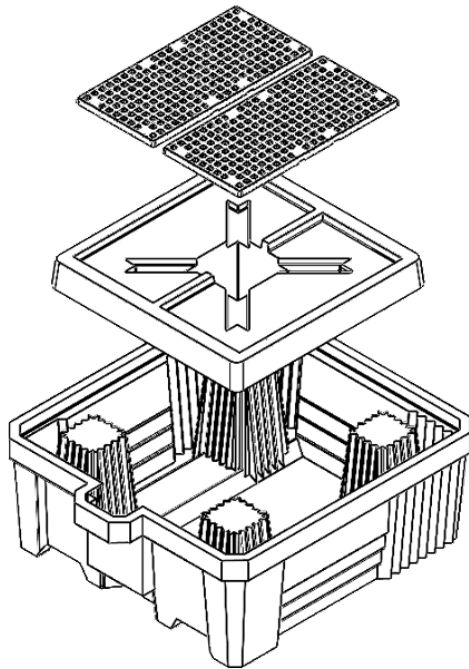

Load Capacity (Yellow): 8,000 lbs. (3,628 kg.)

Load Capacity (Black): 3,000 lbs. (1,360 kg.)

2. It is recommended to have the dispensing bucket area facing forward or out where it can be accessed.

3. It is recommended to load the IBC tote from the **SIDE** of the spill pallet.

4. **Do NOT** move the spill pallet when loaded.

Do NOT move the spill pallet when loaded.
