

Water Scrubber Instructions

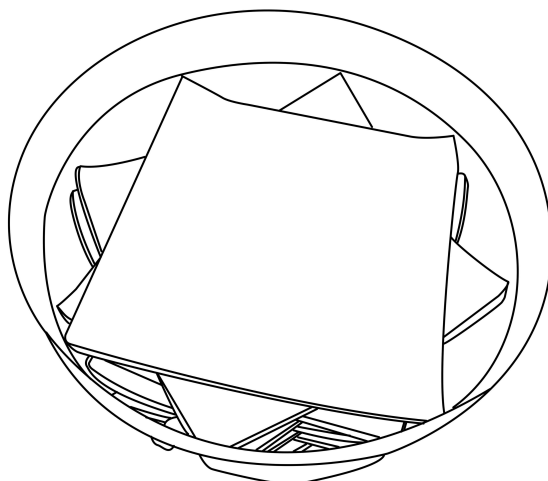

SKU: 43-20-WS

Contents:

- (1) 20-Gallon Salvage Drum
- (15) Oil-Absorbing Pads
- (1) 3/4" NPT Drain Fitting (preinstalled)
- (1) 1" NPT Bulkhead Fitting (preinstalled)
- (2) Disposal Bags
- (2) Zip Ties

Instructions:

1. Place all 15 pads in a fan or star-style position. See image below.
2. Attach your hose to the lid of the drum.
3. Open the bottom drain to allow water to pass through.
4. The product is ready to begin filtering.

Usage:

- Do NOT over-tighten lid of the drum.
- Do NOT use the drum for transportation or as a waste receptacle of hazardous materials.
- The lid can be flipped over and used as a funnel with the bulkhead fitting removed.

Replacement:

- If the flow rate is slow or the pads are completely saturated, then the pads should be replaced. Refill kit (SKU: 43-20-WS-RF) available and replacement pads (SKU: ENP-SPH1616) available.

Disposal:

- Dispose of contaminated pads according to all local, state and federal regulations. Contact your local disposal authority for more information.
