

# THE MINI-RACKER™ SYSTEM

## THE MOST EFFICIENT DISPENSING/STORAGE SYSTEM YOU CAN BUY!

The Mini Racker-Stacker™ System is ideal for storage and dispensing of small containers with built-in spill protection and patented enclosed sump. This System helps save liquids that are routinely lost during the dispensing process and helps protect worker safety by keeping the dispensing area neat and clean.

The complete system consists of the base Racker that will hold two (2) 20 liter cube containers, 5–6.5 US gallon metal or plastic lidded pails or cans, or two (2) 5 US gallon or smaller metal or plastic “jerry cans”. The Mini-Racker™ module is available in two (2) versions: “Place and Use” (6010-YE) and “Mobile” version (6011-YE-M) which includes wheels and handle. The Mini-Stacker™ module can be used in conjunction with the Racker to add an extra level of storage, or separately with another containment solution to mix-and-match the user’s specific need.

Handle flips up on the Mobile Unit for compact storage.\*

Shown with optional workstation- See page 11.

### MINI-RACKER™ & STACKER™

| Part #     | Description  | Dimensions L x W x H in. (cm)  | Weight lb. (kg) | Spill Cap. gal. (L) | Load Cap. lb. (kg) |
|------------|--------------|--------------------------------|-----------------|---------------------|--------------------|
| 6011-YE -M | Mobile Unit  | 31 x 29 x 15.25 (79 x 74 x 39) | 32 (14.5)       | 10 (38)             | 200 (91)           |
| 6010-YE    | Mini-Racker  | 31 x 29 x 15 (79 x 74 x 38)    | 24.25 (11)      | 10 (38)             | 200 (91)           |
| 6012-YE    | Mini Stacker | 31 x 19 x 18.25 (79 x 48 x 46) | 15.1 (6.8)      |                     | 100 (46.4)         |

Regulations: EPA 40 CFR 264.175, SPCC and NPDES

# POLY-SAFETYPACK®

## SAFE, SECURE TWO-DRUM STORAGE.

This tough, indoor/outdoor performer protects two (2) 55-gallon drums while containing leaks with a 130-gallon sump capacity. Unique gull-wing covers provide easy drum access and removal while items inside are protected from the weather with overlapping lid design.

Security locks are included to secure the covers and contents. 100% polyethylene has excellent resistance to chemicals and weather. Translucent sidewalls allow for an immediate view of liquids so you won’t need to open the lids to see if there has been a leak. The Poly-Safetypack® is easily handled by forklift from two sides. Optional drain.

# POLY-SAFETYPACK® PLUS

## TALLER FOR SECURE PUMPING STATIONS.

Poly-Safetypack® Plus provides the same results as the Poly-Safetypack® with the key advantage of a 54.25” inside height. This feature allows the lids to be closed and locked with the pumps in place to create a versatile pumping station. Convenience meets functionality with the large 264-gallon capacity. Drain Optional.
