

POLY-OVERPACK[®] 20 & 30 SALVAGE DRUMS big features and big savings!

20 and 30-gallon Salvage Drums are versatile units that can directly contain solids and sludges with security. With a half-turnlid, these ergonomically designed units allow for easy access, unlike competing "hoop-ring designs" that need a bolt and nut. The 20-gallon unit accepts bottles, cans, and 5-gallon pails, while the 30-gallon unit can contain drums w/capacities up to 16 gallons. Units are also nestable, which allows for ease of shipment. Save on shipping cost and storage space!

POLY-OVERPACKS®

Part #	Description	Top Dia. in. (cm)	Bottom Dia. in. (cm)	Ht. in. (cm)	Weight Ib. (kg)	Spill Cap. gal. (L)	Load Cap. lb. (kg)

POLY-OVERPACK® 65 SALVAGE DRUM JUST THE RIGHT SIZE FOR 30-GALLON DRUMS.

Our Poly-Overpack[®] 65 meets Group 1 packaging standards, Salvage Drum regulations, and is designed to overpack 30-gallon drums. This salvage drum nests for easy storage and has a lid gasket for secure containment. No wasted space! No wasted money!

GREAT AS A SPILL KIT CONTAINER!

It's light enough for one person to handle and large enough to store sufficient absorbent and response equipment for incidental spills.

OVERPACKS- to provide protection for packages of solids OR for convenience in handling a package or consolidating packages of solids. Not to be used for transportation of hazardous material. SALVAGE DRUMS-All mentioned above and for the transport of damaged or leaking drums containing hazardous liquids and hazardous materials.
