Installation (rebar recommended):

1. Remove catch basin grate.
2. Remove dirt and debris from grate and basin edges.
3. Insert rebar through the holes on opposite sides of the unit (see image below).
4. Insert filter and place rebar on ground to hold it in place.
5. Reinstall grate and remove rebar.

For maximum effectiveness, fabric of filter should be fully captured between grate and edge of basin.

Removal (rebar recommended and two people required):

1. Insert rebar through the holes on opposite sides of the unit (see image below).
2. Lift the catch basin grate. The insert will be held in place by the rebar added in step 1.
3. Lift and remove filter using rebar.
4. Dispose of contaminated Storm Sentinels® according to all local, state and federal regulations. Contact your local disposal authority for more information.
5. Replace and install new filter.
