

**Storm Sentinel Grate Gator – 24" x 24"**  
**SKU# 43-24-GG**

The ENPAC Storm Sentinel Grate Gator is the ideal product for preventing harmful pollutants from washing into storm drains by turning the grate into an above-drain filter system. Simply slide the catch basin grate into the sleeve of the Grate Gator and replace in the catch basin. The geotextile fabric prevents contaminated sediment from washing into the drain, protecting you from fines and fees. Sewn-in circular foam provides overflow for high flow situations and is durable enough to withstand vehicle traffic. Most importantly, sediment is captured above the grate, so routine maintenance and cleaning can occur without removing the grate.

Technical Data		
	U.S.	Metric
<b>Dimensions</b>	24" x 24"	61 x 61 cm
