

**Dewatering Filter Bag – 12'x12'**  
**SKU# 431212-10**

Removing contaminated sediment from water is easy with a dewatering bag. Simply connect the neck to a pump, push the water through, and let the geotextile fabric do the work for you.

- Three standard and custom sizes available
- Double-stitched design for durability
- Features a round neck opening that fits pipe up to 4" and a web-strap closure
- Removes sediment, litter, and debris from pump water
