

**Storm Sentinel Catch Basin Insert – Frameless – 36”x48”
SKU# 4320**

Storm Sentinel catch basin inserts are the ideal products for preventing harmful pollutants from washing into storm drains. This frameless model is simple in design, powerful in protection, and the most affordable catch basin insert on the market. There are no special tools required for installation. The weight of the grate holds the unit in place, allowing extra fabric to be cut away for a custom fit. The geotextile fabric prevents contaminated sediment from washing into the drain while an Oil-Absorbing Packet can be added (-IB). Use ENPAC Frameless Storm Sentinels to protect the environment and prevent fines and fees.

Technical Data		
	U.S.	Metric
Dimensions	36" x 48"	91 cm x 122 cm
Cone Depth	18"	45 cm
Unit Weight	2 lbs	0.9 kg
Flow Rate	90 gpm/ft ²	3667 Lpm/m ²
Load Capacity	40 lbs	18 kg
Absorption Capacity	N/A	N/A
Material	8 oz. Polypropylene, non-woven Geotextile	
Regulations	EPA, SPCC, SWPPP and NPDES
