

21'x21'x3' - Stinger PolyBerm Containment System SKU# 45-21213-PB-L

The Stinger PolyBerm is a hybrid containment system that takes advantage of the strength of molded plastic and blends it with the portability of industrial fabrics. Combined with simple setup, these features make this containment system the best option for large tanks and transformers.

- Provides ample storage for tanks and transformers with a 3' sidewall
- No excavation or anchoring required
- Lightweight, modular design can install with as few as two people
- Includes 3' sidewalls and a chemically resistant, durable liner
- Can be used as a permanent structure, or easily disassembled and transported

Technical Data		
	U.S.	Metric
Inside Dimensions	21' x 21' x 3'H	6.4 x 6.4 x 0.9 m
Spill Capacity	9897 gal	37464 L
Material	100% Polyethylene Wall System, Geoloy 528 Liner	
Regulations	EPA 40 CFR 264.175, SPCC, UFC and NPDES
