

Flexible Rack Sump Insert SKU# 464248-RS

Unlike steel or molded plastic units, this racking containment solution does not require any modification to your existing storage. The flexible sump attaches easily to standard racking structures without having to remove any of the contents being stored, saving time and money. A standard $\frac{3}{4}$ " garden hose drain allows a hose to be connected and liquid to be directed to a larger containment sump for convenient, consolidated containment of an entire racking system.

- Highly chemically resistant
- Can be installed and removed without having to remove items from storage
- Custom sizes available
- Sloping base for easy drainage

Technical Data		
	U.S.	Metric
Dimensions	42" W x 48" L x 3" H	107 x 122 x 7.5 cm
Unit Weight	5 lbs	2.25 kg
Flow Rate	3 gpm	11.3 Lpm
Material	22 oz, PVC
