Stinger Rail Berm

SKU# 48-RSB-FS

Smart containment procedures focus on containing the area in a system that is most likely to leak. During dispensing operations, that spot is the valves and connections. Protect your property and employees from harmful spills during railcar liquid transfer with the Stinger Rail Berm. It is fabricated from a durable, fuel resistant fabric, yet is light enough to be placed by one individual

- Fits over rails to contain the valves for bottom loading railcars
- Large spill capacity with secondary containment sump
- Includes two 2" drains with male CAM-LOC fittings for easy cleanup and decontamination

Dimensions	4' W x 6' L x 1' H
Spill Capacity	120 gal.
Weight	38 lbs.
Regulations	EPA 40 CFR 264.175, SPCC, UFC and NPDES
