

Aluminum Batten Strip – 4'L x 1"W x 0.188"H
SKU# 48X1X188-AL-BS

The Aluminum Batten Strips are required for use with the ENPAC Drive-Over Diverter Berm. They are applied on top of the edges of the Diverter Berm and combined with a sealant to anchor the berm to the floor. Batten strips come with pre-drilled, 1/4" holes and are 4' in length for efficient shipping and easy handling.
