

4 Drum Low-Profile In-Line Poly Spill Pallet

SKU# 5102-YE

Need the convenience of a four-drum containment unit, but lack the space for conventional solutions? ENPAC has a pallet for that. This In-Line Poly-Spill Pallet fits snugly against a wall, taking up less room than traditional models. It is also a great option between columns and other "unusable" spaces.

- Low lip on the front edge for easy loading
- Holds four 55-gallon drums with full compliance
- Non-skid, removable grates for easy cleaning
- Optional drain
- Optional ramp
- Optional tarp prevent rainwater intrusion
