

## Steel Double IBC Tote Hazmat Storage Locker

SKU# 9580-WH

If your operation uses large quantities of flammable liquids stored in IBC totes, then the steel IBC locker is a great solution for your containment needs. This unit features lockable hinged doors for added security, while the platform design allows for immediate sump access and cleanup.

- Suitable for compliant storage of two IBC totes
- Durable steel construction
- Passive venting included
- Easy access through full-face opening doors
- Fully customizable upon request
